 Address:

Istanbul/Turkiye

SOFT SKILLS

- Teamwork
- Technical Mentorship
- Leadership
- Effective Communication

TECH SKILLS

- Python
- Data Analysis
- Machine Learning
- Deep Learning
- Data Structures
- Algorithms
- Cloud Computing
- Web Development
- C++

LANGUAGES

- English (Fluent)
- Persian (Native)
- Turkish (Native)
- Azerbaijani(Native)

PROFILE

Third-year AI Engineering student at Bahçeşehir University. After completing 2 years of medical school, I pivoted to Artificial Intelligence to pursue my passion for technology. Now skilled in Python, Machine Learning, and Cloud Computing, I combine a rigorous academic background with a data-driven mindset. A fast learner and aspiring builder dedicated to developing innovative AI products and scalable technical solutions.

EDUCATION

Bachelor of Engineering 2023-2027

Artificial Intelligence | Bahcesehir University

GPA: 3.1 / 4.0

Minor Degree 2025-2027

Business Administration | Bahcesehir University

GAP: 3.5 / 4.0

Bachelor of Medicine 2020-2022

Medicine | Erciyes University

GPA: 2.7 / 4.0

PROJECTS

Bookstore API - Flask, MongoDB, Docker and Kubernetes JAN 2026 - FEB 2026

A RESTful API for managing a bookstore built with Flask and MongoDB. Containerized with Docker and orchestrated via Kubernetes for scalable deployment.

Technologies Used: Flask, Docker, MongoDB, Kubernetes

Medical Cost Prediction JAN 2026 - FEB 2026

A predictive analytics model estimating medical insurance costs using Polynomial Regression and Support Vector Regression.

Technologies Used: Python, Polynomial Regression, SVR, Pandas

EXPERIENCE

Member

BAU Artificial Intelligence Society

2025 - 2026
